

**Bradesco invites the Brazilian market to contribute to the construction
of the UN's Principles for Responsible Banking**

Banco Bradesco S.A. ("Bradesco") is part of the group of 28 banks that are launching today the initial version of the Principles for Responsible Banking (PRB) for public consultation, promoted by UNEP FI (United Nations Environment Programme Finance Initiative).

The Principles will reinforce the banking industry's role in shaping a sustainable future and the Sector's contribution to the achievement of the Sustainable Development Goals (SDGs) and the Paris Climate Agreement.

After the launch, a global public consultation begins to collect feedback for the construction of the Principles' final version - to be announced in September 2019 at the UN General Assembly in New York.

Bradesco, by participating in the project, strengthens its commitment to sustainability and, as a Brazilian representative among the founding institutions, invites all stakeholders to get informed about the proposal and to offer inputs for its improvement until May 2019.

Please visit the Banking Principles section on UNEP FI website to obtain more information and access the feedback form.

Regards,

Banco Bradesco S.A.
Carlos Wagner Firetti
Department Director
